

# Proposal for Scout Schultz Memorial Bench

The cost for a Campus Beautification Memorial is \$10,000. The cost ensures the proper maintenance of the memorial for its life.

## Location

Figure 1. Preferred Location on GT Map

We looked at potential locations surround Van Leer and the new courtyard near the College of Computing.

The location that stood out best to us is located on the side of Van Leer “off the beaten path.” It seems as though this would be a good place to reflect.

## Plaque Design

The plaque aims to draw importance to their identity as non-binary by providing Scout’s pronouns.

As a result of the progress at the Institute, they were awarded an honorary degree as shown.

We are also highlighting their activism as well as their excellence in academics.
